

HOW TO RECORD: VEO CAM 3

To record with Veo Cam 3, make sure you have the Veo Camera app installed on your phone.

To install the app [click here](#) for iOS, and for Android, [click here](#).

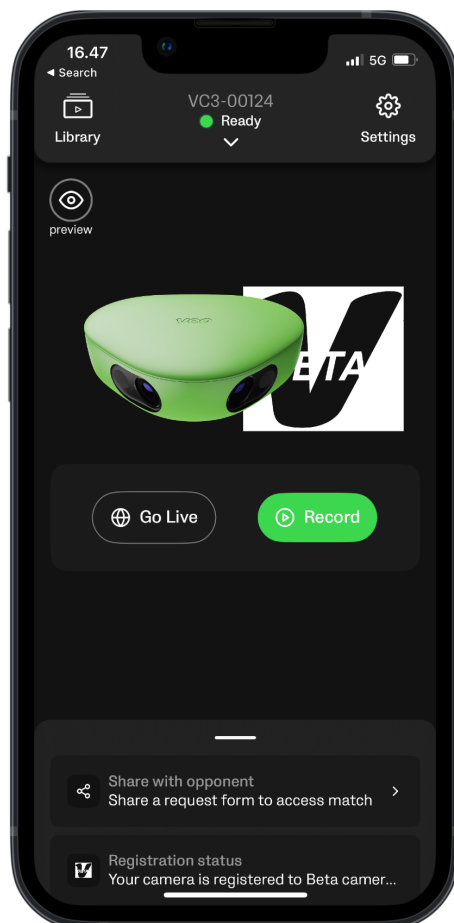

To record, follow the next steps:

On your Veo Cam 3:

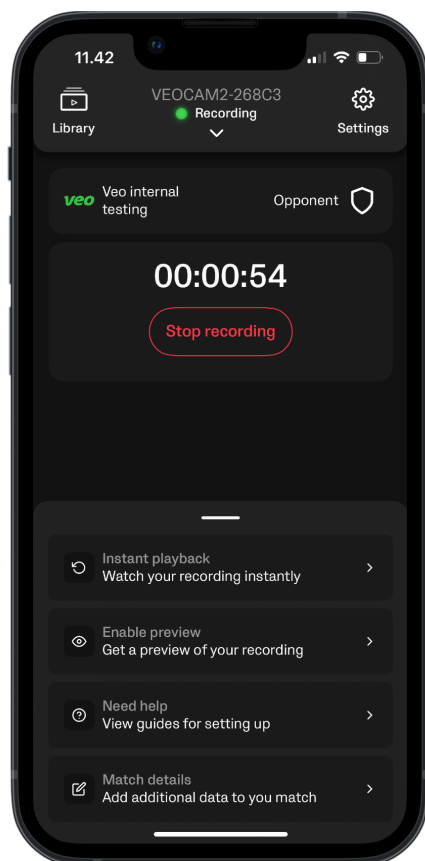

1. Press the power button for 1 second to turn on the camera.
2. Wait for the status lights to be solid, and the camera is ready to connect.

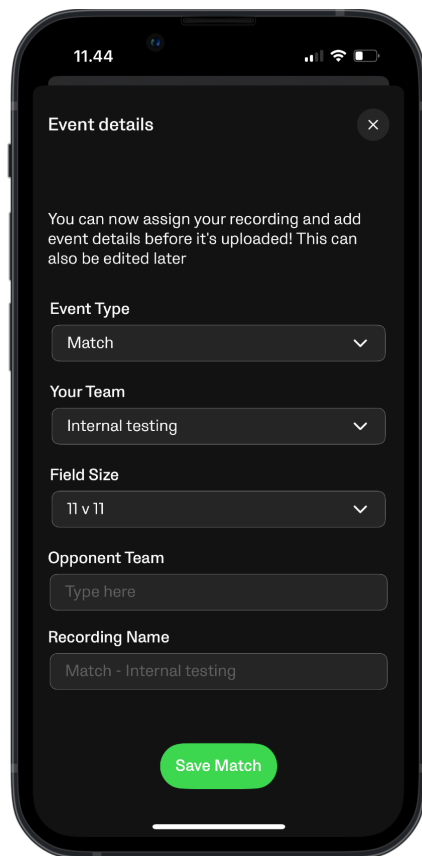

On your phone:

- Make sure Bluetooth is enabled on your phone.
 - Open the Veo Camera app.
 - [Connect to your Veo Cam 3](#) following the on-screen instructions.
- Once connected, you will see the **Record** option in the screen.

- Tap on this option, and your Veo Cam 3 will start capturing the action on the pitch. When the camera starts recording, you can put your phone away and focus on the game, or if you're using iOS you can access **Instant Playback** after 45 seconds. The feature is currently not available for the Android app.
- Open the app again and stop the recording when the game is over. You will have the option to add all the match info before saving.

The file will be stored on the camera until you [upload](#) it to the Veo Editor. When you select Live Stream, the camera will also record the entire match and become available to upload to the platform as usual.
