CREATE AN ACCOUNT

This is what the create new user page looks like.

Friendly words of advice. FILL OUT THE FORM COMPLETELY AND ACCURATELY. Enter your birthdate, not your child's birthdate. Do not make up a false birthdate. If you do that, your birthdate may limit the actions you can make in the system.

Make sure to create a password that you will remember and click on "I have read and accept teams and conditions."

Then click on the gray "CREATE AN ACCOUNT" button.

VERIFYING YOUR EMAIL ADDRESS

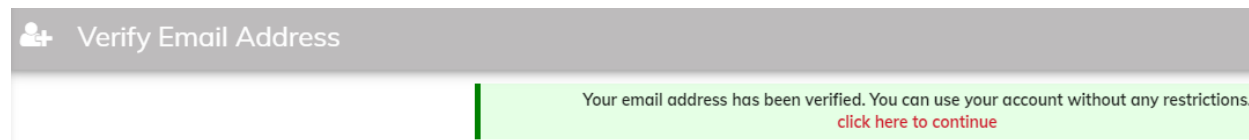

After clicking Create an Account you should get an email in your email account from the system.

CREATING A TEAM

You should now be at your dashboard page which looks like this:

Please click on "Verify Email Address". This will take you to the website and will look like this:

Now you can click on "Create a Team"

Adding Player to your roster - Our system is designed to have family accounts for all participants. A representative from each family will create a user account. There are two ways to get players added to your roster. 1) Player Invite - Click the yellow roster button, the next page you are on has a player invite button. OR 2) Providing the Roster Password - Once the family representative logs in, they can go to the "My Family" section on their dashboard. The option "Join a Team" will be available for each family member. They will click the "Join a Team" button and by providing the correct Roster Password the person will be placed on the team.

Quick Search

And click on the green “Invite Players” button.

The screenshot shows a web interface titled "Invite Player" with a close button (X) in the top right corner. Below the title are three tabs: "Invite Player", "Your Players", and "Search Existing Player". The "Invite Player" tab is active and contains a form with the following fields: "Player's First Name *" (with a blue arrow pointing to it), "Player's Last Name *" (with a blue arrow pointing to it), "Email" (with the placeholder "player@address.com" and a blue arrow pointing to it), and "Phone" (with the placeholder "555-555-5555" and a blue arrow pointing to it). At the bottom of the form is a dark blue button labeled "Send Invite".

You now have three (3) options to invite players to participate with your team:

1. You can "Invite Player". This is most used to invite a new player to the system.
2. You can use "Your Players". This is for players that have played on teams with you in the past.
3. You can "Search Existing Player". This would be for players you know exist in the system but have not played on your team.

Invite Player requires you to know the player's Name, Email Address, and Phone Number.

Your Players will have a list of players to select from.

Search Existing Player will require you to select a state and search on a name and then select from a list of players.

JOINING A TEAM

Once you "Invite Player" they will get an email asking them to join the system just like you did.

If the player exists in the system, they will get an invitation to join your team. The invitation will also exist on their Dashboard > My Family tab next to your player's name and it will say "Join a Team".

Family Members

The family members section should contain anyone from your family playing sports in the association. You can also include others that need to receive system notifications. Only children in which you are the responsible guardian should be added to your family.

- If you are standing next to a player with a cell phone you can go to your team page on your phone, and they can scan the QR Code with their phone and accept your invitation to the team. This might be the easiest way since most teams get together before the season to practice.
- Or they can follow the separate set of instructions from the same page above to the right of the QR Code.

SUPPORT
