

Equipment Inventory and Procedure

To coach soccer, some of the following equipment can help organize drills and small games:

- Corner flags
- Portable goals/nets
- Markers/cones
- Coloured bibs
- Soccer Balls and Futsal Balls (sizes for age)-pumps included
- Ladders
- Poles
- Hurdles

All London–St. Thomas Croatia Soccer Club coaches and managers attend a meeting once a year (prior to the summer season) with a list of equipment required for the year.

Coaches are to consult with the Technical Director regarding drills that align with the Club's Technical Plan and LTDP outlined by Canada Soccer. This will assist in determining what equipment is required for training sessions.

If there is a returning coach, he/she is asked to make a list of equipment that they have and contact Joe Ostojic (Club Administrator) who will assess the condition of the equipment and determine the need of purchasing new equipment.

Equipment needs are normally assessed once a year; however, if a coach requires more equipment or replacement of equipment, they are encouraged to contact Joe Ostojic to further discuss.

The coaches are also provided with First Aid Kits yearly and are responsible to contact Joe Ostojic if more supplies are required. These includes ice packs, bandages, guaze, bandaids, swabs etc.

Joe Ostojic maintains an inventory of all equipment provided to coaches. It is the responsibility of each coach to ensure that equipment is handled properly and not misplaced.
