

Hello Parents of AAA Youth Volleyball Players,

This is just a quick note to let you know the youth volleyball schedule has been posted on the Andover Athletic Association Website. There should be an enlargement + to make it larger for reading purposes.

A couple of reminders:

- Please keep your daughter home if she has a fever, isn't feeling well, or has been exposed to someone w/Covid 19.
- Please have your daughter wait until 5 minutes before practice time to enter the building and make sure she wears a mask and has a place to store her mask.
- No parents can stay in the gym area. There cannot be crowds or groups of people in the hallways.
- Please remind your daughter not to stand in a group near the gym doors and to spread out so the early group has room to exit.
- We have 10 minutes between practices to sanitize the balls and clean the gym area. We will release the 6:30 group at 7:20 and provide time for the 7:30 group to create a homebase for each individual player.
- Homebase is where each player will keep their waterbottle, mask, hand sanitizer, personal items, and I recommend a towel.
- Your daughter should wear tennis shoes in the gym.

I will be in touch if we cannot use a gym or practice is canceled for some reason. In the year of Covid anything could happen. The Andover Athletic Association is just glad we are able to offer this revised season in partnership with the Andover HS program.

The Andover HS Volleyball players and coaches are looking forward to creating a great experience for your daughters. See you Wed., Sept. 9! Feel free to contact me with any questions.

Sincerely,

Heidi Fondurulia
Andover Athletic Association Girls Volleyball Director
