

Dear Legend Supporter,

I would like to invite you to become part of a living Legend. Legend High School opened in August of 2008 and over the past 10 years we have continued to enjoy outstanding growth in all areas of our school. Legend has a caring staff, and a beautiful building with state of the art facilities for academics, activities, and athletics. It is clear that this school affords the opportunity to graduate world-class students, making a positive impact on our community and the world.

### **Everyone wants to be a TITAN!**

Legend's sponsorship program allows families, organizations, and business owners an opportunity to build community within the Legend Titan family. Every year we continue to build on the Legend culture and grow our programs. Many sponsors enjoy this opportunity to support Legend students and programs, while benefiting from exposure at many school and community events. Sponsorships create a partnership between school, family, and businesses that promote and develop strong community relationships. We look forward to building new partnerships that will support you, Legend High School and the community.

### **Why should I become a Legend Sponsor?**

Now that our building and facilities have been used year-round for many years, we are in need of some maintenance and facility repairs, as well as upgrades in some areas. Your financial support will go toward supporting ALL Legend High School athletics and help us with these necessary upgrades and repairs. **A few things we have been able to accomplish with the help of our current sponsors is new football equipment, baseball and softball field renovations, new tennis court bleachers and court resurfacing as well as updating the gym.**

We are the only high school in Colorado with a state of the art LED Scoreboard that will allow you to advertise your business in front of traditionally large crowds in our gym! We are a family and we would like you to join us. Please consider how you can become involved with us this year and call us with any questions.
