

# **Woodstock Youth Hockey**

## **2021/2022 COVID Safety**

Woodstock Youth Hockey is excited to return to a traditional hockey season. This year our home rink is open for parents and spectators! Players are able to get ready in the locker room! We will have games throughout the season! These points all seem worth highlighting and celebrating.

Woodstock Youth Hockey also takes safety seriously. We want kids to be in school and playing hockey. In accordance with policies and communication from the Centers for Disease Control, State of Vermont Department of Health, USA Hockey, and Vermont State Amateur Hockey Associate WYH has created the following policy.

### **Masks**

In order to limit the need for quarantining and testing, Masks should be worn at all times on and off the ice by all people.

We ask that parents send appropriate masks for their child for both in the locker room and under their helmet. We also ask parents to remind their children to keep their masks on.

### **If you are sick**

If you are not feeling well, please stay home. Our season will run best if we do not expose each other to colds, flu, or COVID.

### **If you test positive for COVID**

Please contact Jennifer Beckwith, WYH's Player Safety Coordinator as soon as you are able. She will work with the state to ensure that our players stay safe.
