

# MARC COVID-19 RINK

## Safety Policies and Procedures

### Coming to Our Facility:

- Those wishing to come to the MARC this season must wear masks at all times
- Anyone experiencing COVID-19 symptoms, waiting on a COVID-19 test, or anyone exposed to a COVID-19 patient may not enter the facility without a negative COVID-19 test
- If you have travelled outside to the restricted states described in the PA Dept of health guidelines you may not enter the MARC within two weeks of your return
- <https://www.health.pa.gov/topics/disease/coronavirus/Pages/Travelers.aspx>
- All MARC patrons must practice social distancing and maintain six feet of distance between themselves and other patrons whenever possible
- Coaches, referees, and athletes are expected to wear masks unless on the ice and actively participating in a work out, game, or activity that prevents use of a mask
- The MARC is operating at 25% capacity which includes staff, players, and coaches. This will limit the number of spectators for events and programs so we encourage you to find alternative ways to watch MARC events such as through LiveBarn
- Participants should arrive dressed for events due to a limit of six children per locker room

### Facility Cleaning:

- Commonly touched surfaces such as door handles, rink glass, hockey benches, etc. will be cleaned between events and will be regularly cleaned throughout the day
- MARC maintenance staff will be cleaning locker rooms between uses
- Common use items such as ice walkers will not be provided this season for skaters to limit any potential spread of COVID-19
- Entrances will be marked as enter or exit to encourage one way travel
- Hand sanitizing stations will be provided throughout the facility
- Restrooms will be deep cleaned every four hours

### Employee Safety:

- All employees have been trained in COVID-19 safety and sanitation protocols.
- All employees have been instructed to stay home if they do not feel well.
- Employees that report any symptoms will follow a thorough reporting procedure.
- All employee hand tools, equipment, computer peripherals, workstations and break rooms are cleaned and sanitized multiple times per day.
- Employees are required to wear masks. Employees will wear gloves based on their job activities.
