

COVID-19 Protocol (Updated 1/14/2021)

All players will enter the rink through the main doors to get their temperature checked. From there, the players will be instructed to go to either the BHS Girls locker room, the warm room or another specified locker room (depending on numbers), to finish getting ready to go on the ice. When the players exit the ice, they will return to their respective locker room and then leave the rink through the warm room or HS girls locker room door. We ask players to arrive at the rink mostly dressed and not any earlier than 15 minutes before their practice or game time to limit the time spent in the locker rooms.

Biddeford Ice Arena will allow **one spectator per player** into the rink to watch WEEKEND GAMES ONLY!! Spectators are still not permitted during practices.

One spectator per player will only be allowed in the arena 5 minutes prior to games when Zamboni is on ice.

Biddeford Ice Arena will also be turning on Live Barn for weekend games only!

With this comes requirements that **MUST BE FOLLOWED** with NO EXCEPTIONS.

- Mask or face covering required at all times.
- All temps will be checked.
- All will be required to sit in bleachers and follow social distancing.
- Absolutely NO standing around the glass.
- **Spectators are not allowed to enter until 5 minutes before when Zamboni is on. Enter through the lobby doors and exit immediately after the game through the handicap ramp doors.**
- ONE spectator means ONE spectator (siblings count as spectators).
- Sanitizing of changing areas and players benches will take place after every changeover of customers.

As this season progresses the arena may need to make adjustments and will make sure that you are all notified of such changes.
