February 2026

Hello all,

REGARDING EQUIPMENT IN THE DOME

The Irish Sports Dome is scheduled to be rebuilt during the summer of 2026 and expected to be ready by early fall of 2026. In addition to a brand-new shell, the rebuild will feature enhanced facilities, including new suspended lighting to improve visibility and a new heating/mechanical system to better control the temperature to provide an overall better experience for all users.

As such – all equipment owned by your organization/program will need to be removed prior to the start of construction. (construction start date – TDB)

Equipment that needs to go through the Airlock (garage doors). Because equipment has to go thru airlock we need to make sure, we have proper staff that can assist.
