Player Eligibility

Parents and Players,

In the past few days we have welcomed the Caledon Bandits back to Zone 10 starting this upcoming season. With the recent news there have been many inquiries and questions directed to our membership through social media, phone and emails. We have been diligent in trying to ensure we had the correct information to share prior to releasing details on where players can register.

The information is as follows:

When a new association starts, the player(s) who fall within that boundary but have played elsewhere with another club, that player(s) has a one-time chance to decide whether to stay with the current club or to return home to their new association. Whatever the choice the first season will now make that club their official home and in the future a release for any type of movement

**Example** the player resides in the Caledon boundary and decides to register for the 2020 season and remain a part of their current club the player would then require a release to return to Caledon in 2021 or subsequent seasons.

Yours in lacrosse,

*Chris Lowe*
