

Application for Initial Placement Adjustment

- Any club may apply to adjust a team’s placement in the first OVA event if they did not compete in the previous season in a specific age category.
- Applications must be received prior to the Provincial Cup registration deadline to be considered.
- The Initial Placement Adjustment is only guaranteed for the first event of the season.
- The Initial Placement Adjustment is determined by using the top 6 players average Ontario Championship finish from the prior season (Final end of season rank).
- Teams with an average that places them in the top half of Trillium White, Championship or Select (as per Youth Competitions Structural Guidelines) in the first event will be granted the Initial Placement Adjustment.
- Teams who are granted the Initial Placement Adjustment will be seeded in their respective tournament in the Trillium White, Championship or Select division as the bottom seed.
- The team will receive a NR (No rank) to start the season. Their first official rank will come after the Provincial Cup when the first rankings are released.

*Please Note – Underage initial placement is automatically done by Youth Competition Staff based on the table in section 4.12 of the Youth Competitions Manual. No form is required for underage teams competing in their first event at the older age level.

Fee: \$150
