

We couldn't be more excited to see hockey returning and we encourage you to renew your USA Hockey membership today to help our programs plan for the upcoming season!

While things may look a little different as the season gets started, we can assure once you get back on the ice it will feel like the same game you know and love.

Safety is our top priority and Idaho Amateur Hockey Association and USA Hockey will continue to develop recommendations for on-ice activity centered around a safe and fun environment.

We are here to support and make your transition back to the rink as easy as possible. Our rink operators have, and continue to work diligently to follow national and local healthcare recommendations.

The following resources have been made available through USA Hockey to encourage best practices, in addition to helping answer questions you and your family may have:

- [Early Return On-Ice Activities](#)
- [USA Hockey Safety Updates](#)
- [Facemask Guideline](#)

We know everyone is excited to reunite with their hockey family. Together, we will ensure that you feel confident and safe in their return to the rink.

Yours in hockey,

John Heinrich
