

American Youth App Instructions

1. Go to the App store on your iPhone or Android and download the “American Youth App” it’s the only app in there that’s titled this. I’ve attached a photo to show you what it looks like.
2. When the App is downloaded onto your phone, click on the app and it will take you to the sign in page. On the bottom of the page it reads “Don’t have an account? Sign up” Click that and register with an email and password.
3. Once registered, the app will ask for a campaign code. **Current users back out of previous campaign and Click ADD NEW on the top right.** Enter the code of the team you’re a part of. Once you’re logged into the app with the code you will never be logged out unless done manually.
4. Once in the app, players can start recording sales. Click “New Sale” and record cash, check, and credit sales. Selling via Credit cards on the app is easier than ever, players can send a text by clicking on the “Boost your sales” button that’s located in the middle of their home page on the dashboard and then selecting Text/SMS. The player can send a pre-written text to people in his contact list, then the buyer will receive the text and will fill out their info with their credit card. IT IS still up to the player to deliver the item to the buyer!!
5. Player’s should track every single sale, so we all know exactly how well the program is doing. The app allows you to see a leaderboard as well as prizes!
