

Northwell Health Ice Center: Out of State Travel Restrictions Policy

In an effort to keep ALL of our players, families and staff healthy and safe through these unprecedented times it is necessary for Northwell Health Ice Center to implement the following policy regarding out of state travel.

For Out of New York State Travel to or from ANY and all ICE HOCKEY (or any youth sports) TOURNAMENTS or Events it will be necessary to quarantine and NOT participate in ANY ACTIVITIES held at Northwell Health Ice Center for 14 days upon return from said event. This includes ALL outside states, **even those NOT included on the NYS quarantine list**. Those events draw families from all over the country and we can not be certain all are not from quarantined areas. It is our understanding that many of these events may be conducting their activities “business as usual” with limited or no social distancing, therefore, we must take this action to protect all our participants and the continuity of our programs.

For any personal travel outside of NY State to State/Areas under the NYS State quarantine orders, please make sure you understand that the quarantine order includes, upon return from your trip, **NO** participation in **ANY** activities at Northwell Health Ice Center until the 14 day quarantine period is completed. For personal travel, the restriction DOES NOT include travel from States/Areas NOT on the NYS Quarantine list.

WE ARE ALL IN THIS TOGETHER!! PLEASE FOLLOW THESE GUIDELINES AND HELP KEEP EVERYONE SAFE as well as our facility and programs open and thriving.

Thank you for your cooperation.

Sincerely,

AJ Congero

General Manager
Northwell Health Ice Center
