Our Mission & Why We're Raising Funds

Elite Volleyball has always been about more than competition. It is a place where young athletes can train with purpose, build confidence, and grow into leaders both on and off the court. As our program continues to expand across Sarasota, Manatee, and the surrounding Suncoast communities, the need for a dedicated training home has become clear.

A dedicated facility will allow Elite to elevate coaching, enhance athlete development, and deliver a best-in-class experience for the families we serve. This next chapter represents a defining moment in Elite's growth.

Through strategic investment in facilities, programs, and long-term sustainability, we are building an environment designed to support athletes today while creating opportunity for generations to come.

Together, with the support of our community, we will bring this vision to life.

The Future Home of Elite Volleyball

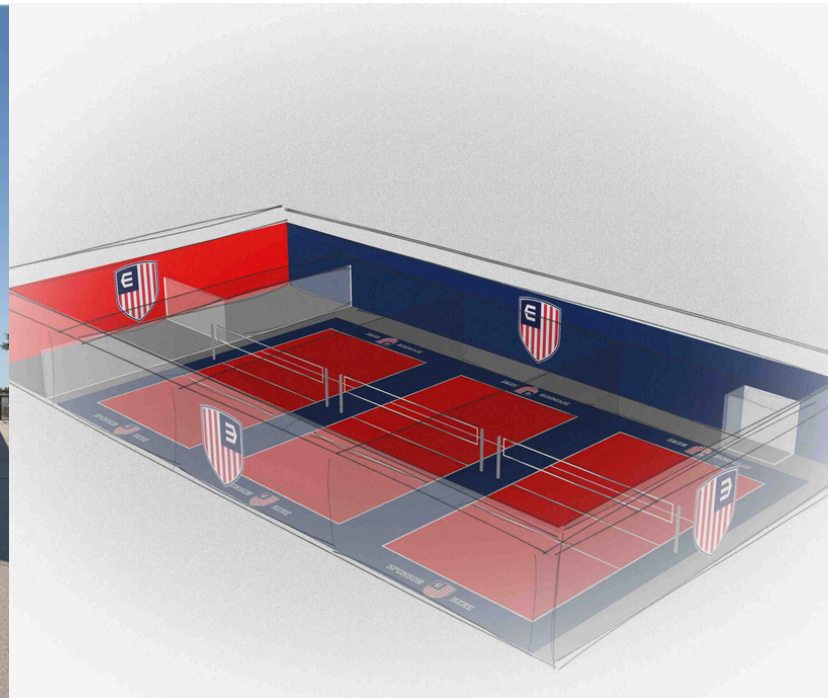

Elite Volleyball's dedicated training facility represents a transformational step forward for our athletes, families, and the broader Suncoast community.

Located in Sarasota and designed for year-round indoor training, the facility will provide approximately 12,000 square feet of open, high-ceiling space built to support competitive volleyball development, advanced coaching, and community programming. Multiple full-size courts, flexible training configurations, upgraded lighting, and athlete-focused gathering areas will create an environment where players can train, recover, study, and grow together.

This space is more than a building. It is a long-term investment in stability, opportunity, and excellence—ensuring Elite Volleyball can continue expanding access to high-quality training while supporting the next generation of athletes and leaders.

Financial Stability & Long-Term Sustainability

Elite Volleyball’s long-term vision is built on a foundation of responsible planning, sustainable operations, and community support.

The new training facility is designed not only to meet the immediate needs of our athletes, but to ensure the ability for growth for years to come. Startup investments will support essential build-out, flooring, equipment, and operational readiness—allowing the club to develop in their own facility.

Ongoing operating costs will be sustained through diverse and reliable revenue streams, including team training and practice use, clinics and camps, private lessons, tournament and event hosting, and community programming. These combined sources are structured to meet or exceed annual operating expenses while supporting continued program expansion.

This investment secures Elite Volleyball’s next chapter—providing immediate stability for our athletes and families. As we enter this new chapter, we are asking for the help and support of Elite families and the community for financial sponsorship.

How to Give & Ways to Partner

Supporting Elite Volleyball's future home is simple, meaningful, and impactful.

We invite families, businesses, and community leaders to partner with us in creating a dedicated training space that provides immediate stability for our athletes.

Ways to Give

One-Time Gifts

Direct contributions at any donor level support facility build-out, equipment, and start-up needs—moving Elite Volleyball closer to opening its dedicated training home.

Business Sponsorships

Local and regional businesses may partner with Elite Volleyball through donor recognition, branding opportunities, court or facility naming, logo placement on signage and apparel, and visibility at events and programs throughout the year.

In-Kind Support

We welcome partnerships with companies able to contribute construction services, building materials, athletic equipment, flooring, lighting, technology, furnishings, or other professional services that support facility development.

Elite Volleyball Facility Fundraising FAQ

1. What is Elite Volleyball?

Elite Volleyball (www.elitevball.com) — a member of the Florida Region of USA Volleyball (USAV) and the Amateur Athletic Union (AAU) — is a girls volleyball club with teams ranging from age 9 through 18 that compete in local, state, regional, and national tournaments.

Founded to provide high-level training and competitive opportunities for athletes in the Sarasota and surrounding communities, Elite Volleyball has consistently developed teams that compete at the highest levels within the state and nationally, while also helping numerous athletes pursue collegiate volleyball opportunities.

2. What is the purpose of the Elite Volleyball fundraising campaign?

The purpose of the fundraising campaign is to underwrite development and startup costs for a dedicated indoor practice and training facility.

By reaching or exceeding the fundraising goal, Elite Volleyball will be able to complete all necessary facility upgrades, flooring, equipment purchases, and initial startup and operating costs without the need for financing, ensuring long-term financial stability for the club.

3. Why does Elite Volleyball need its own facility?

Since its founding, Elite Volleyball has relied on renting or borrowing local gym space.

A dedicated home facility will:

- Eliminate uncertainty related to gym availability
- Allow practices to begin earlier in the preseason
- Increase flexibility in practice schedules and duration
- Provide year-round access for training, clinics, camps, and private lessons
- Create opportunities to host tournaments, scrimmages, and community events
- Support the launch of developmental “mini-club” programs for younger athletes at a lower cost
- Most importantly, a dedicated facility establishes a home for Elite Volleyball and its athletes.

4. Where will the facility be located?

The new Elite Volleyball facility will be located within close proximity to the club's core athlete population in the Sarasota and surrounding Suncoast communities, ensuring convenient access for current and future families while supporting continued regional growth.

5. Who owns the building?

The building is owned and managed by experienced local ownership committed to community-focused development and long-term stability.

6. Is the building safe?

Yes. The facility is located in a well-lit commercial area and is equipped with appropriate safety infrastructure, including fire protection systems and secure surroundings.

7. Is the facility air-conditioned?

Initial operations may utilize high-capacity fans and cooling solutions to maintain a comfortable training environment. Future climate control upgrades are planned as the facility grows and funding allows.

8. What about restrooms and parking?

The facility includes convenient restroom access and parking to comfortably accommodate athletes, families, and event attendees.

9. How will the facility remain financially sustainable?

Ongoing operating costs will be supported through diverse revenue streams, including:

- Team training and practice usage
- Clinics, camps, and private lessons
- Tournament and event hosting
- Community programming and facility rentals

These combined sources are designed to meet or exceed operating expenses and ensure long-term sustainability.

10. Who is responsible for planning, managing, and operating the facility?

A dedicated leadership group consisting of club directors, experienced parents, and community professionals who oversee:

- Planning and development
- Fundraising and financial strategy
- Logistics and procurement
- Long-term facility vision

Day-to-day operations will be managed by Elite Volleyball leadership and staff, with additional administrative, volunteer, and professional service support added as needed.

11. Once the facility opens, why continue fundraising?

Continued fundraising ensures:

- Completion of all planned courts and training areas
- Coverage of early operating expenses
- Financial stability during program growth
- Ability to expand programming and community access

Early donor support creates the foundation for long-term success.

12. Are contributions tax-deductible?

Elite Volleyball is not a 501(c)(3) nonprofit organization, so contributions are not tax-deductible charitable donations.

However, businesses and community partners may provide sponsorship or marketing support in exchange for promotional benefits such as:

- Brand visibility inside the facility
- Logo placement on signage, banners, uniforms, or digital media
- Recognition on the Elite Volleyball website and social media
- Event or program sponsorship opportunities

Because these partnerships provide advertising and marketing value, sponsoring businesses may be able to treat their support as a marketing or advertising expense. Sponsors should consult their tax professional for guidance.

13. How will donors and sponsors be recognized?

Elite Volleyball will publicly recognize supporters through:

- Website recognition
- Facility signage, banners, or plaques
- Event and program acknowledgments
- Recognition levels will correspond with the size and impact of each contribution.
