Trend Rank = A rank of the players with an increasing rate of the number of points per game per year over the last 5 years.

The rank number is based on the slope of a least-square linear fit to the last five years of points per game data for each player.

The lower the rank number the greater the rate of increase in points per game per year.

The quality of the fit (coefficient of determination) must be greater than 0.4 to be assigned a rank
