This camp is going to cover many areas of dance which are needed for the Blaine Dance Team (fall & winter). We will be working on jazz skills including **leaps, jumps, turns, fuates, arm/body placement, jazz movement and combinations**. We will also be working on high kick skills including **form, flexibility, different kick styles, stretches, splits and breaking down the fundamentals of kicking**.

We strongly encourage ALL dancers to participate in this camp. It will help with developing skills as well as relationships between dancers and dancers/coaches. It will be very helpful in keeping our dancers active throughout the summer to be prepared for the start of the season.

This camp will help coaches determine areas in which dancers need to improve. We feel that this will help us to work on skills we need in order to have a successful fall and winter season.
