GOALS

GOALS
LONG & SHORT TERM

CLUB

TEAM

INDIVIDUAL

The club, team, and each individual player should have realistic short term and long term goals.

All goals should have the main emphasis on development.

Success should be a reward for reaching the goals of development.

INDIVIDUAL GOALS

It is important to establish the goals of each individual player.

There should be long term goals and short term goals.
i.e. long term goal is to play in high school or college; short term goal is to be able to head the ball properly by the next game.

All goals, though they can be aimed high, should be realistic.

All players should be constantly reminded that player development is a long process that takes a lot of dedication and discipline.

It is important for the club to try and help each player reach their goals, both short term and long term.
