I am extremely happy with the coaching staff we have put together. Coming from different coaching and playing backgrounds across the country, our staff is prepared to navigate the uniqueness of hockey in the Valley.

The goal of the Vegas Jr. Golden Knights Hockey Club is to deliver on our core values:

- Create an environment that allows youth hockey players to learn and excel at the sport
- Develop high achieving student athletes through positive team experiences
- Demand the best of ourselves and each other

Coaches play a vital role in successfully fulfilling our goals. Their teaching fosters player learning, making them better athletes, teammates, colleagues, family members, and students. We take to heart both the responsibility and the challenge presented in striving to reach our goals.

Please, do not hesitate to reach out if you have questions. We are excited to see everyone on the other side of this "pause". Until then, stay safe and be healthy.
