Bantam Director (Adam Buckley)

- Asked for tournament feedback

Peewee Director (Aaron Freer)

- Discussion on playing time and number of players per team
 - We had parents from the PW AA team at the meeting to discuss playing time and number of players on AA. Aaron discussed that he has currently had about 50 hours of conversations with parents regarding the decision made to have 15 players on the team and fair play time. The reasoning behind 15 players was to grow and develop more players. There were only 4 PW teams this year. In the past there have been 5 teams. Parents in attendance would like for the

PW director and the board to hear feedback from all parents, not just those reaching out. Also to have conversations with all coaches regarding numbers and skill level to see how it has impacted their team. The idea of also having the number of players in the bylaws for AA was also discussed.
