What are Game Days?

We want/need our players to play on their own, not just at structured times with coaches. This is a skill that needs to be learned (how to make teams, call fouls, keep score, rotate players, etc). We also know kids enjoy playing games so we have set aside Thursdays for game days. We will have supervision and coaching guidance, but we hope this is as player-led as possible. It gets better each week with opportunity and practice! Families are welcome to any skills sessions or game day sessions.
