

How to apply for a scholarship to play for the Durham Junior Trojans

Thank you for your interest in youth sports, specifically playing football or cheerleading for the Durham Jr. Trojan Program. Our program is committed to creating a safe, family and community oriented, fun atmosphere, to teach kids the importance of a healthy lifestyle. We will incorporate a healthy diet with conditioning to get the athletes in shape and ready to learn how to become part of a team, and give them a sense of pride for our community.

We realize that the registration fees and costs to play football and cheerleading can be expensive. We do have opportunities for athletes to receive scholarships through the Durham Jr. Trojan program. However, those interested in a scholarship **should first** solicit donations from businesses to be applied toward their fees. The following is an example of what your athlete might say when approaching businesses:

“Hello, my name is _____ . I am here representing the Durham Jr. Trojans. I am very interested in playing football/cheerleading for the Durham Jr. Trojans. I am looking for sponsors to help support the registration fees I have to pay to play. Any amount of donation would greatly help me and I would really appreciate your support. Could I count on your business to help me play youth football/ cheerleading? Thank you very much for your time.”

Attached you will find a form to help you keep track of the donations you received, and businesses that you have talked to. **Please return this form and donations to Bryon Lauderdale or your team mom as soon as possible so we can determine your scholarship need.** We will accept ALL amounts of donations. The sponsorship form attached is for businesses that are interested in sponsoring you. Please have them fill out this form and return it with their donation. It is also located on our website, should you need more forms.
