

Minnesota Hockey Adult Report

Spring 2021

- I would like to thank the return to play committee for the work and flexibility to help bring adults back to the ice.
- Adults are down in numbers however the bag pilot program did bring our numbers up significantly.
- Adults to continue to push for a return to play without masks and full locker room access.

Finally I would like to note we had most arenas support the bag pilot program, and we had minimal issues once it started. We punished those who violated, and word spread fast to alleviate the issues. All in all I would say the program was a success.

Submitted,

Brandon Koontz

Minnesota Hockey Adult Director
