

13/14 programs to align with HS program

July 27, 2020

I am excited to announce that Neenah Baseball has taken the necessary steps to align the 13/14 programs with the Neenah HS baseball program. As a feeder program, NBI, will be a direct extension of the HS program using the same skill teaching, terminology, and philosophy currently utilized by me, and my staff.

In this collaborative effort between the HS, Neenah Baseball, and Suburban Athletics, we will look to develop a program that will compete in the highly competitive FVA, and hopefully at the State level. Most successful HS coaches tout a strong youth to HS connection. With this in mind, I feel a 13U & 14U tournament program within both leagues with direct HS input is the best step to getting our program to this level. I truly believe that the talent in Neenah has gone unrecognized. This unified effort is hopefully the next step in elevating our baseball program. Go Rockets!!
