About Braxton:

Braxton (aka Brax) was diagnosed with Very High Risk B-Cell Acute Lymphoblastic Leukemia in January of 2020. She is currently in remission with an end of chemo date set for May 2021. While spending 97 days in the hospital she was able to see how critical of a role positivity and programming play in both mental and physical recovery of patients. From very early on in her treatment Brax felt a strong desire to help and give back to others going through the same fight.

TB1Fund: (Team Brax 1 Fund)

What is TB1Fund? When Brax was initially diagnosed all of her friends, family, and teammates rallied around her to form TEAM BRAX. Brax wanted to help others going through similar life changing events so she decided to create 1 FUND to help kids and families at her hospital.

TB1Fund's Mission:

TB1F's mission is to positively affect every child and family who comes through the University of Minnesota Masonic Children's Hospital. TB1F and Brax are dedicated to making a difference. Areas of focus are TB1Family's financial support in areas of basic need and day brighteners, hosting hospitality days, Brax's exclusive TB1F/UNRL T-shirt for patients, and by partnering with Masonic on specific projects that align with our mission. Being able to provide positive experiences that can immediately affect patients and families is critical to Brax's mission.
