ABOUT TEAGAN

Teagan Damme was diagnosed with Adrenoleukodystrophy (ALD) in November of 2023. There is no cure for this disease. Without treatment, he will not survive. Teagan will be undergoing chemotherapy and a bone marrow transplant. This process is very long and extensive.

As you can imagine, this will be a heavy financial burden for the family. Let's come together to support Teagan and his family.

Teagan is a third grader at Lou Henry. He is active as a goalie and skater for the Waterloo Junior Hawks. Teagan LOVES hockey! He is vibrant, funny, caring and kindhearted. We would love everyone's support and prayers during this journey to health!
