Pope John XXIII

Department of Health

Dear Parent/ Guardian,

In order for your Student to receive any type of medication at Pope John XXIII there must be a signed written order from your physician and parents.

Behind this letter is a form for the medication we now have in stock that the school nurse can dispense to your student if needed. If you would like your student to receive any of these medications at school, please have your physician fill out the over the counter medication form at the time of your student's physical.

If your student has asthma or any allergies requiring an epi-pen or inhaler, you must review and sign the asthma action plan, allergy action plan, and delegate order forms. These forms must be given to your physician at the time of your student's physical for review and signature.

If your student requires any other types of medication –the school nurses must have written orders from your physician, which must include the name of the medication, dosage, and directions for administration. The physician must sign the orders. The parent/guardian should attach written consent for that medication to be administered as well. The medication must be provided to the school in the original container.

Thank You,
Pope John XXIII Nurses
