### Definitions:

**Heat:** The 50- and 100-meter dashes will run a qualifying heat leading into a final, provided there are more than 9 qualifiers.

**Flights:** The 200- and 400-meter runs are conducted in flights within each age group. Participants only run once, in their flight. There is no second race for a participant, i.e., NO "FINAL". Participants must run in their lane the entire race. Times are compared in all flights in each age group division to determine the final winners. Best overall times win.

\*Please note: Division 11/12 is combined and will be competing against each other.
